

# OrthoCAD™ Digital Study Model Shipping Instructions - From Canada

- UPS Next Day Service is available through OrthoCAD™. Your account will be billed \$23 U.S. per UPS Next Day Air shipping box received.
- 2nd Day Service is available through Canada Post. For more information go to <http://www.canadapost.ca/>
- 2nd Day Service is also available through Insurance Courier Service (ICS) for international shipping. For more information go to <http://www.ics-canada.net/>

Send your impressions to:  
CADENT Inc.  
640 Gotham Parkway  
Carlstadt, NJ 07072-2405, USA

\* Be sure to use 100+ hr alginate or PVS for any shipping method other than next day service.

## 1. Packing of Impressions

- Wrap the impressions with a wet paper towel.
- Place into a ziplock bag.
- Seal ziplock bag.
- Pack one impression per ziplock bag.
- Rubbing alcohol is not recommended for use with PVS.
- If you are using alginate in the Winter (November - March) - add a tablespoon of rubbing alcohol to each bag prior to shipping.

## 2. Assembling Impression Boxes

- Assemble one impression box for each patient.
- Place the patients' upper and lower impressions, including bite-registration (e.g. wax-bite, bite-block, etc.), inside each impression box.

## 3. Top of the Impression Box

- Affix the office-specific label to the top of the impression box.
- Print patient name, chart number and impression date.
- Please print clearly - **Capitalize** all letters.
- On the side of the box check off the additional service(s) requested per each patient case:
  - Virtual Set-Up Model
  - Shoot the Germs Game (CD with patient game)
  - Send Plaster Casts (to request a stone cast)
